

# Legislative Day 2026

## Making Legislative Appointments

Making an appointment with your Assembly Member or State Senator is an easy process. We have been advised to begin making appointments as soon as the middle of February.

Please schedule your appointments from 9:15 am to 11:30 am on Thursday, April 23, 2026.

**Here are the links for each house:**

Senate: <http://senate.ca.gov/>

Assembly: <http://assembly.ca.gov/>

### Finding the legislator that you want to make the appointment with

Use the the Senator drop down tab on the top of the Senate page and scroll down and select find my senator. If you enter your address it will show you who the Senator and the Assembly Member is for that address.

On the 'Contact us' page there is a form that you will fill out. You will need to include your first and last name, address, email address and you can request an appointment from the drop down menu.

When making the request you may want to use the following language in the comments section:

Dear Senator \_\_\_\_\_,

My name is \_\_\_\_\_ and I am a Pest Control business owner in your district. I will be at the Capitol on Wednesday April 23th with a group of other owners who are a part of the California Pest Management Association.

We are coming to the Capitol because we would like to discuss a few industry items with you directly. We think we can cover these items in 10-15 minutes and would appreciate your time.

Would it be possible to meet at \_\_\_\_\_.

Thank you for taking the time to see us.
